Musculoskeletal System Help

A-tron is a nutritional supplement designed for the musculoskeletal system especially the joints and ligaments. Degeneration of joint cartilage primarily affects weight bearing joints such as the knees, hips, spine, ankles and hands and occurs typically with age, from injuries or if a person is overweight. A-tron is formulated to help preserve, strengthen and rebuild cartilage in the joints thereby assist in providing relief from pain, inflammation and joint stiffness.

The ingredients in A-tron assist with the management of the following symptoms of joint degeneration:

- Morning stiffness
 - Joint pain, swelling and stiffness
 - Joint redness and warmth
 - Joint deformity
 - Limited joint mobility
-
- Arthritis (Rheum)
 - Arthritis (Osteo)
 - Bursitis
 - Fractures
 - Joint Pain & Stiffness
 - Rheumatism
